## WHAT IS KDP PRINT ON DEMAND?

If you are an avid reader or have been interested in self-publishing then you have no doubt heard of Amazon's Kindle Direct Publishing program – otherwise known as KDP.

With KDP you can publish your books in digital and print for free and sell on Amazon to millions of readers. You can earn up to 70% royalty on Kindle eBook and 60% on paperback sales.

For many years, since the start, KDP has focused solely on helping people to publish their books in digital format – as an eBook.

If anyone wanted to publish print versions of their books then they would have to use another platform and one of the more popular services was Createspace...which was owned by Amazon.

Unfortunately, Createspace has now been shut down to make way for Amazon's new print on demand program via KDP.

KDP's new print on demand service allows you to self-publish your book in paperback and sell it on Amazon websites in the US, Europe, and Japan, as well as other retail book sellers through KDP's Expanded Distribution channels.

You don't have to pay any costs upfront or carry any inventory. Your book is printed on demand when customers purchase it.

## KDP DASHBOARD

I am going to make this tutorial as easy to follow as possible. If you are a newbie...just follow these steps at your own pace; there is no need to rush because you can save your progress as you move along.

Some aspects of the self-publishing process can be intimidating and confusing, especially the first time you do them. This tutorial will guide you step-by-step through the process.

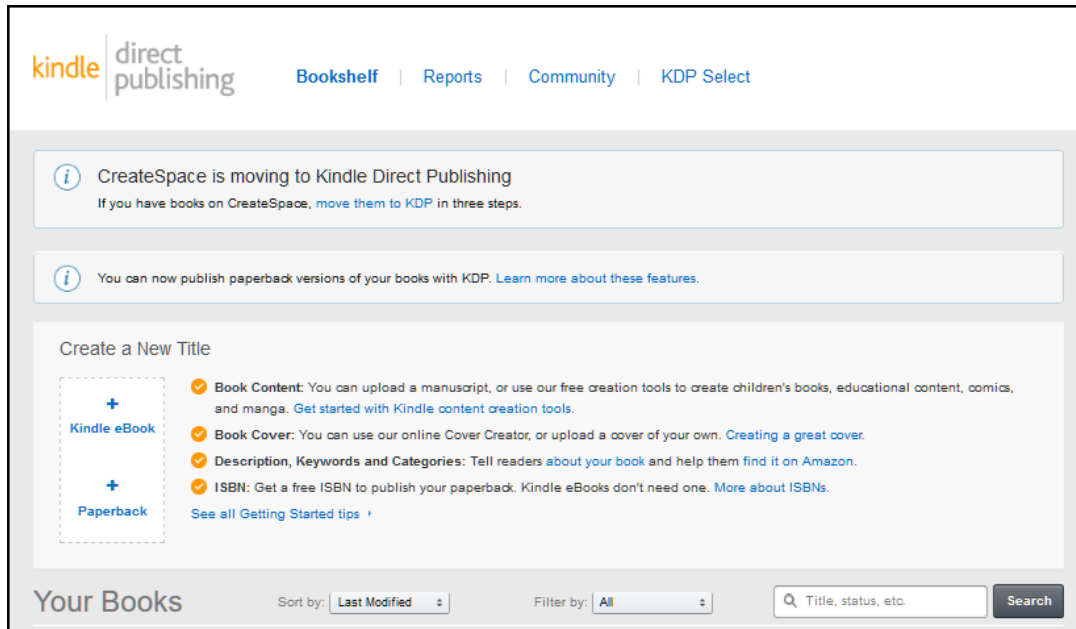

### SIGN-IN TO KDP

**NOTE:** Before you do anything with KDP always make sure you have your completed interior book document. If you are new to KDP then all you have to do is sign up for a free account **HERE** - <https://kdp.amazon.com>.

You will also need your book cover document. This would have been created before; either you hired someone to do it or you created a cover yourself using software such as Paint.net.

If you do not have a cover ready then you can use the in-built Kindle Cover Creator tool - [mentioned in a section later.](#)

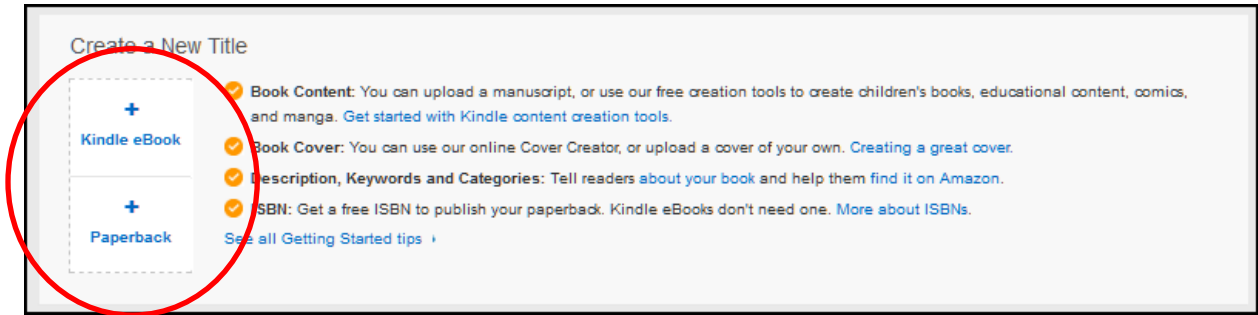

1. Once you have signed up and verified your account you can now log in to your KDP dashboard. It will look like the image you see below.

This is where a list of all your books will be featured. If this is your first book then you will not see any books yet....we will remedy that!

2. In the "Create A New Title" box you have the option to create an eBook or a print book. In this tutorial I will show you how to create a print book, however both processes are virtually identical.

## KDP PRINT ON DEMAND TUTORIAL

**3.** Click the blue text “Paperback” button.

**4.** You are now on the “Start Your New Project” page.

A screenshot of the 'Start Your New Project' page for Paperback on Amazon KDP. The page has three tabs at the top: 'Paperback Details' (which is active and shows 'In Progress...'), 'Paperback Content' (showing 'Not Started...'), and 'Paperback Rights & Pricing' (showing 'Not Started...'). Below the tabs, there are three main sections: 'Language', 'Book Title', and 'Series'. The 'Language' section has a dropdown menu currently set to 'English'. The 'Book Title' section has a text input field for the 'Book Title' and a text input field for the 'Subtitle (Optional)'. The 'Series' section has a text input field for 'Series name' and a text input field for 'Series number'. There are also links for 'Learn more about entering your title information' and 'How to provide accurate series information'.

**5.** Choose the “Language” of your book using the top dropdown menu.

**6.** Type your “Book Title” in the next box. I also recommend

you type in a subtitle in the box below that.

7. If your book is part of a "Series" you have the option to add that series name and number in the small boxes provided.
8. Next you have the option to add an "Edition Number". This is mainly used when you update a book and want people to know if it is the latest updated edition.

The screenshot shows a form with three main sections: Edition Number, Author, and Contributors. The Edition Number section has a title, a descriptive text with a link, and an optional input box. The Author section has a title, a descriptive text, and a row of five input boxes for Primary Author or Contributor (Prefix, Selen, Middle name, Dale, Suffix). The Contributors section has a title, a descriptive text, and a row of input boxes for Author (with a dropdown arrow), Prefix, First name, Middle name, Last name, Suffix, and a Remove button. Below this row is an Add Another button.

**Edition Number** You can provide an edition number if this title is a new edition of an existing book. [What counts as a new edition?](#) ▼

Edition number (Optional)

**Author** Your paperback should have at least one author or primary contributor.

Primary Author or Contributor

**Contributors** You can add additional contributors including more authors, illustrators, editors, and translators, among others.

Contributors (Optional)

9. In the next couple of sections you will add your "Author" name and you can also add "Contributors" too.
10. In the next box you will add your book "Description". Bear in mind you have 4000 characters to use...which I think is ample.

**NOTE:** Click the little blue links sometimes found beside the text if you want to get further details about that particular section.

**20.** In the "Manuscript" section all you have to do is click on the orange button to upload your work.

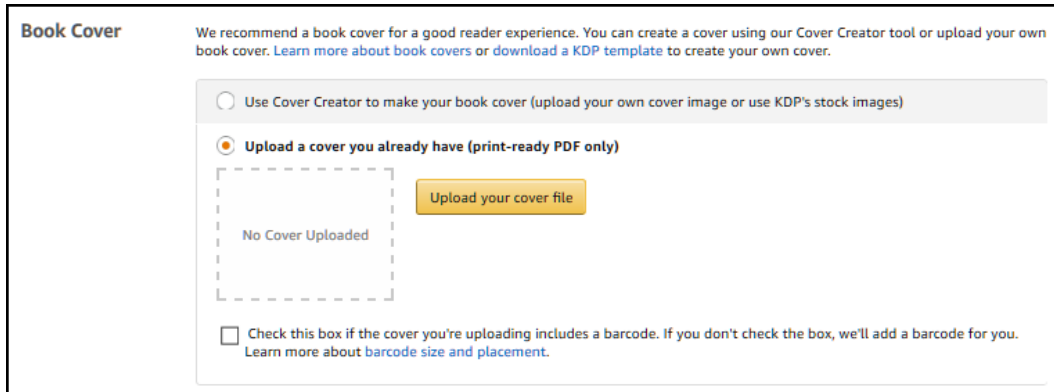

**Manuscript**

Upload a manuscript of your book interior content. For best results, we recommend using a formatted PDF file for paperback. You can also upload a DOC (.doc), DOCX (.docx), HTML (.html), or RTF (.rtf). [Learn more about manuscript uploads](#) or [download a KDP template](#) for your preferred trim size.

**Upload paperback manuscript**

✓ Manuscript uploaded successfully!

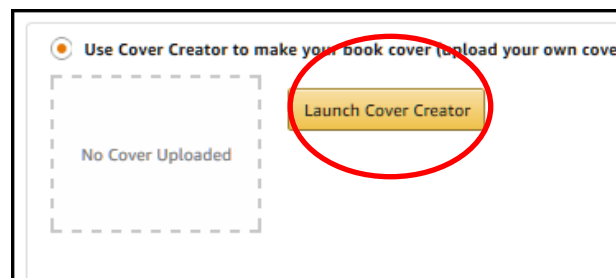

- 21.** Now you will be uploading your book cover. Here you have 2 options, either upload a PDF cover that you have previously created OR you can create your own using the very intuitive Kindle Cover Creator tool.

The screenshot shows the 'Book Cover' section of a KDP interface. At the top, it says 'Book Cover' and provides a recommendation: 'We recommend a book cover for a good reader experience. You can create a cover using our Cover Creator tool or upload your own book cover. [Learn more about book covers](#) or [download a KDP template](#) to create your own cover.' Below this, there are two radio button options. The first option is 'Use Cover Creator to make your book cover (upload your own cover image or use KDP's stock images)'. The second option, which is selected, is 'Upload a cover you already have (print-ready PDF only)'. Under the second option, there is a dashed box placeholder labeled 'No Cover Uploaded' and an orange button labeled 'Upload your cover file'. At the bottom, there is a checkbox labeled 'Check this box if the cover you're uploading includes a barcode. If you don't check the box, we'll add a barcode for you.' with a link to 'Learn more about [barcode size and placement](#)'.

Those of you who have already created your book cover using external imaging software like Photoshop can just upload your image direct from your computer by clicking the orange "Upload Your Cover File" button. Just make sure you save as a PDF.

If you would like to create a cover using the Cover Creator tool then just click on the top option – "Use Cover Creator to make your book cover....."

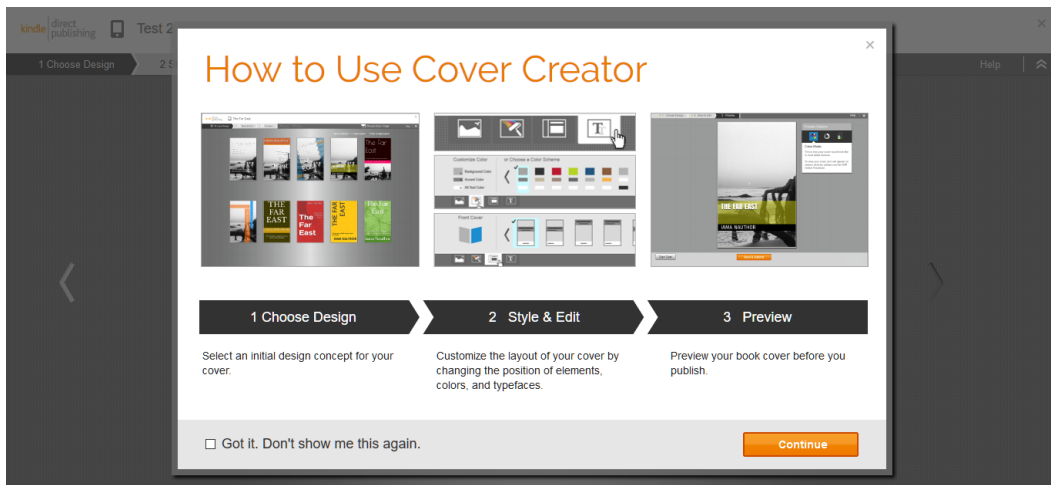

This screenshot is similar to the one above, but it shows the first radio button option selected: 'Use Cover Creator to make your book cover (upload your own cover image or use KDP's stock images)'. The orange button next to it is labeled 'Launch Cover Creator' and is circled in red. The 'No Cover Uploaded' placeholder and the barcode checkbox are also visible.

Then just click the orange "Launch Cover Creator" button. Follow

## KDP PRINT ON DEMAND TUTORIAL

the very simple step by step instructions.

If you require additional instructions you can watch the short tutorial video that KDP provides:

[https://kdp.amazon.com/en\\_US/help/topic/G201113520](https://kdp.amazon.com/en_US/help/topic/G201113520)

When your cover is complete, upload it and then “Preview” it before moving onto the next section. The interface will not let you move on until you have previewed your book anyway. Make sure to look through all your pages just in case there are any errors.

When you are done...submit your files to be reviewed and then “Save & Continue”

- 22.** Once your cover has been uploaded you will then be taken to the next setup page....“Pricing”.

- 23.** In “Territories” it is usually a good idea to just leave it as “ALL” territories however you may change that to specific

countries if you wish.

- 24.** With “Pricing & Royalty” what you decide is really up to you. Experiment with your pricing because the royalties are seen in real-time which is very helpful. Just put a price in the first box, click “calculate” and you will be able to see whether you have overpriced or underpriced your book.
